<b>TO: Rosita and Vasques Exemption Application Files      FROM: Ray Leissner, EPA Region 6</b> <b>(214) 665-7183</b>			

The attached letter dated July 10, 1998, addressed to Ray Leissner, Ground Water/UIC Section 6WQ-SG, is accepted as an addendum to the Rosita and Vasquez exemption applications. The attached letter and maps clarify and provide specific information regarding the areal extent and location of those portions of both aquifers to be exempted. In addition, in the letter, TNRCC addresses the potential need for additional notification. With the aquifer exemption boundaries clearly defined and the issue of public participation addressed, I propose that we seek final approval of both exemptions.
